

250

500

A diagram of a semi-circle. A horizontal line segment at the bottom represents the diameter, with arrows at both ends pointing to the endpoints. The number '500' is centered below this line. A vertical line segment on the left side represents the radius, with arrows at both ends pointing to the center of the diameter and the top of the arc. The number '250' is placed to the left of this line, oriented vertically.
